

EMC and LVD

Testing, Training and Consultancy

EMC headache?
METECC has the answer

TEST CHAMBER

Our purpose-built testing room is the ideal place for a range of your EMC needs, with personal service at competitive prices.

www.metecc.eu T: 07725 079956

ON-SITE TESTING

If your product will not fit into our chamber, we have a fully functional mobile testing suite.

Most tests can be performed at your site (indoors or outdoors) at a time to suit you - a cost-effective solution.

We can mobilise our expertise and equipment anywhere in Europe.

STOP PRESS...

As part of our continual improvement programme, we have recently added 18GHz radiated emissions, 25GHz radio test capabilities, 2GHz radiated immunity. And soon to be commissioned: 3GHz radiated immunity, H-field emissions, and immunity (mil 461, DefStan 59-41).

Please call us to see how we can best meet your needs in these

TRAINING

We have expertise in training for EMC Legislation, Design, Development, and LVD Assessment.
